

GIFA and AIMA Autumn Update

28 Portland Place, London
7th November 2018

The Guernsey Investment Funds Association and the Alternative Investment Management Association are hosting an Autumn update on current issues in the funds industry.

The event will be held as two panel discussions covering the following two key topics;

1. Distribution

Everyone wants to be able to sell their new fund to every possible investor in the universe. However, that latitude can come at quite a cost. Panellists will discuss the various options in terms of domicile, fund shape and legal structure, to help you get the most “bang for your buck” as you try manage those early-year budgets.

2. Substance

Wherever you choose to place your fund, having a sufficient substance requirement to meet the growing trend being imposed by regulators and tax authorities will be vital. Panellists will discuss how best to future-proof your organisation and fund to meet these requirements (both as they stand today and, through the crystal ball, how they might look over the next decade).

When: 7 November 2018, 8am for refreshments, panel sessions 8:30 -10:00am

Where: 28 Portland Place, London, W1B 1LY
